Summary

- Professional software developer with over 3.6 years of experience in building and optimizing user-friendly web applications.
- Expertise in frontend technologies including React, Next, TypeScript, JavaScript, HTML5, CSS3, Redux, BootStrap, etc.
- Skilled in diagnosing and resolving complex JavaScript and UI/CSS issues, thereby enhancing website performance and improving user satisfaction.
- Demonstrated success in leading Agile development teams and consistently delivering high-quality software solutions on schedule.

Technologies

- **Frontend Development:** HTML, CSS/SCSS, React, Redux, ES6+, Application optimization, Responsive UI design
- **Libraries/Frameworks:** ReactJS, NextJS, BootStrap
- **Operating Systems:** Windows, Mac OS
- **Programming Languages:** JavaScript, TypeScript

Experience

Intarc Consulting Services, *Consultant*

- Tech Stack: React, JavaScript, JSX, HTML, CSS, Redux, NextJS, ReactJS
- I led the frontend development, created reusable components, created custom hooks, and used memoization and resource optimization techniques to enhance overall application modularity and scalability.
- Designed and developed responsive and interactive web applications using Next.js, ensuring high performance and scalability.
- Managed deployments to various environments while adhering to best practices.

Mohali, Punjab
Jul. 2023 - Present
3 Year 9 Months

Capgemini Pvt. Ltd., *Software Engineer*

- Tech Stack: React, JavaScript, JSX, HTML5, CSS3, Redux
- I designed and implemented 25+ animated gamified templates using CSS and React, which significantly enhanced user engagement and interaction.
- Collaborated with cross-functional teams to ensure high-quality deliverables, conducted thorough testing and troubleshooting, and continuously improved the platform by integrating new technologies and industry trends
- I contributed to the development of multiple projects, leveraging React's component-based architecture to create modular and reusable components.

Bengaluru, India
Feb. 2021 to Jul. 2023
2 Year 9 Months

Lotus Quality Assurance, *Web Developer Intern*

- I was engaged in developing the registration page for the company utilizing Vue.js and ASP.NET MVC framework.

Hanoi, Vietnam
Jan. 2020 to Mar. 2020
3 Months

Education

Chandigarh Engineering College, Computer Science

Jul. 2017 to Jul. 2021

- GPA: 7.64/10.0
- **Coursework:** Data Structures and Algorithms, Operating Systems, Database Management, Software Engineering.

Projects

My Portfolio

Dec. 2023

- A personal website made using HTML, CSS and JavaScript showcasing my frontend development skills. [🔗 Myportfolio.com](https://myportfolio.com)

Seller CRM

Jan. 2024

- A Customer Relationship Management (CRM) Project built with React. This project showcases the features I learned and implemented while exploring React, the CSS framework Bootstrap, and interactive elements like SweetAlert. Used HTML, CSS, JavaScript, ReactJS, Redux.
